

Ron Adams

Somerville MA USA ron@0xadada.pub linkedin.com/in/ron-a github.com/0xadada

Staff software engineer with a passion for building great products. Expertise and intuition in multiple technology stacks. Independently design and implement systems given loose business requirements and goals. Mentors other engineers.

Defined technical strategy and drove execution across Salsify, Cinch Financial, Nara Logics to implement products that are usable, accessible, delightful, performant, maintainable and cost effective. Built products that been seen by millions at Amazon, Walmart, Target and other big retailers with brands such as Levi's, 3M, and L'Oréal.
